**DALMATIAN ASSOCIATION OF QUEENSLAND INC  
JUNE to AUGUST FINANCIAL REPORT**

For the Month Ending 31 August 2008

## Treasurer's Report

The Dalmatian Association of Qld is doing well after the National Show with a small cash increase of \$1917.29 since the start of the year. The club held a fabulous show within budget through hard work on fund raising and the kind donation from many members, Dalmatian exhibitors and sponsoring businesses. My greatest thanks to all as I was a bit nervous managing cash flow before the show since so many costs are incurred prior to the show entries, donations and fund raising coming in. I hope all income and costs from the National are now in so I can do a final accounting for the show; drawing together income and costs in 2007 and 2008 that have contributed to this show.

Regards

**Julie**

## *National Dalmatian Specialty Show 6 June 2008*

### *Judge - Mrs S McMillan - Critique*

My apologies for the lateness of this critique. That's due in part to my natural tendency to put things off as long as possible, as well as trying to figure out how to deal with a defective tape recorder – or perhaps just a defective tape. Whichever it is, I am forced to rely on my lousy memory, as I relied on the recorder and did not make any notes. The critique will be general rather than specific, but hopefully useful. I've actually "thought" this critique many times – I just haven't put it down on paper!

I was delighted with the overall quality of the entry, but rather amazed at the variation in size and type. Huge dogs with lots of bone, moderate sized dogs with just barely enough. Very large sound bitches, but just too much to them, as well as small slight bitches. Most of the males had reasonable proportions, but some of the bitches were very long in back, often with poor top lines, and several were also short on front leg.

Soundness was generally more consistent than type, with a goodly number of nice moving dogs. It was interesting to note that Australians race their dogs, just as Americans do. It's well to remember that proper reach and drive are evident even at a moderate speed, and many dogs would move more correctly if shown at a proper speed, particularly on the down and back. Carriage dogs required endurance not blinding speed.

The dewclaws surprised me, as did the abundance of very long toenails. Several dogs with questionable mouths, but as I recall all the bitches had correct bites. There were a number of bad coats, some overly fat dogs, and a couple of very strangely colored livers. I was also surprised by so much face color on some of the black-spotted dogs, cream-colored (rather than white) coats, frosty/ticky spotting, some very "open" (rather than tight-fitting) coats, and some very yellow eyes.

But that's all fault judging (except for the dewclaws), and all dogs have their faults. It's the judge's job to assess the dogs' virtues, and place them according to how well they fit the breed standard. Judging dogs is a very subjective exercise, based on both the judge's interpretation of the standard and personal preferences. I feel that the Dalmatian should be a moderate, well balanced, athletic dog, sleek, fit, enthusiastic, stable in temperament, and pleasing to the eye. Extremes in size, substance, and markings detract from that look. Dalmatians should be both sound and beautiful.

The best dogs were excellent, and I particularly liked the depth of quality in the Open Bitch Class. When those girls entered the ring it just took my breath away. What a beautiful class! The line up of class winners in both sexes contained a number of very nice Dalmatians. Someone mentioned that they understood most of my placings, but a few of the placements surprised them. Although there is a "look" that I prefer and feel to be correct, I try to appreciate and use quality dogs that may be larger or somewhat different in type if they are sound and pleasing to the eye.

My Dog Challenge and Reserve Challenge winners were half-brothers, and shared proper size & proportions, excellent type, correct heads, level backs, proper tail carriage, dark eyes, reasonable patterns, good condition and sound movement. The Reserve dog showed particularly well, but the Challenge dog beat him out on slightly cleaner movement coming at me. I liked both of them a lot and was delighted to find out they were related.

My Bitch Challenge winner caught my eye the moment she came into the ring. Some dogs look great in a stack, but lose that look when they move. This bitch looked equally good moving or stacked, and kept her beautiful outline and look of quality at all times. She had a great attitude, lovely proportions, beautiful markings, excellent condition, and was an easy winner, and went on to Best Of Breed. The Reserve Challenge bitch was a squarer, more compact type, not quite as exotic, perhaps a bit more correct in head and eye color, very sound, beautifully marked and in good condition. The third place bitch in that class also caught my eye, and was sound, well spotted, and of excellent type, but I preferred the croup on the first place bitch and the head on the second place bitch. Another bitch I liked a lot was the Intermediate class winner. Beautifully spotted and lovely in type, a bit smaller than the Open bitches, she was very pleasing and well presented.

I'd like to thank everyone for the opportunity to visit Australia and judge your specialty. Thanks for your entries, good sportsmanship and kindness. Everyone was so nice, and I had a fabulous time. The trip provided me with an opportunity to visit the Great Barrier Reef, the trip of a lifetime for me. I can't thank Megan and Andrew Bennett enough for all their help and hospitality. It was such fun to stay with them after the show, get to know their terrific twins, and talk politics and social issues with Megan and Jenny and Sandy. It was amazing how similarly we view the world! Thanks to Lionel for being the perfect Steward, making me feel at ease and guiding me through the maze of classes, and thanks too to Joan who picked me up at the airport in Brisbane, and got me settled in at my hotel, took me to dinner, and marked my catalog.

The cute little bear in the Aussie sweater sits on my dresser. When winter comes to Minnesota and the ground is covered with snow, I can wear the great looking winter jacket with the Aussie Dal logo, and remember my wonderful Australian adventure. Thanks everyone!

## National Show Fundraising Report

Hello to all the spottie fans,

Well, what a National. I think we are still recovering from it. It was such a blast and a great success and there are so many people who put a lot of time and effort into making everything come to fruition for the big day.

I personally have people to thank for helping me out leading up to the National. Firstly, to Ian Robinson. After many phone calls and discussions about sizes of marquees and how many we needed, along with the budget of how much we had to spend, along with new territory in which the National was to be held and the space we had left, we finally decided on what we ended up with on the day. With some 'powers of persuasion', Ian managed to pull off the near impossible. So my humble thanks go to him for one hell of an effort. And to Jo, Ian's wife, for her never ending patience.

To Prospect Wines for making our fundraiser a fun and successful, stress free time, thank you so much. And for those of you who want more, they said we can order more wine as much as we want, with our label on the bottles too! That's awesome! Thank you to all of you who supported the fundraiser and for those that didn't, you should try the wine, it is really more-ish. We've had a few members who have already skulled their dozen or so bottles and are asking for more! Goodonya!

Our dinner and Auction night was H U G E...Our raffle was drawn at the end of the night after so many tickets were sold, it wasn't funny! You might think it funny though when the raffle was picked by our esteemed judge Sue MacMillan and Allyson and Mary Forrest's name was called out as being the winner of an esky chokkas with booze, nibbles and other paraphernalia. Their faces said it all, albeit a little under the weather by then with copious amounts of alcohol already consumed and with slightly inebriated grins and staggers, they managed to get it all home. I distinctly recall Mary's astounded wonder, stating they had never won anything before. So I am happy it went where a liquid diet was most needed.

Thank you, thank you, thank you to everyone who supported our raffle. I don't have the figures, but I am sure our treasurer can fill everyone in on how much it went to supporting our National. Thank you must also go to Gary and Emma Unsworth, Brett and Wendy Johns, Darryl Bale, Allyson and Mary Forrest, Jenny Allan and those of you who I am so sorry I cannot remember (my list has grown legs and disappeared), but you know who you are, who donated items towards the raffle. If it wasn't for you, we wouldn't have had such a successful raffle, so once again a huge thank you to you all!

Don't forget if you want to order anymore wine, you can email me for an order form at [lotzee@bigpond.net.au](mailto:lotzee@bigpond.net.au) and I will email it back to you.

Until next time, seeya around like a spot!

Toni

## OK, I KNOW THIS HAS NOTHING TO DO WITH DALMATIANS, BUT IT IS SO CUTE.....

In a zoo in California, a mother tiger gave birth to a rare set of triplet tiger cubs.

Unfortunately, due to complications in the pregnancy, the cubs were born prematurely and due to their tiny size, they died shortly after birth.

The mother tiger, after recovering from the delivery, suddenly started to decline in health, although physically she was fine.

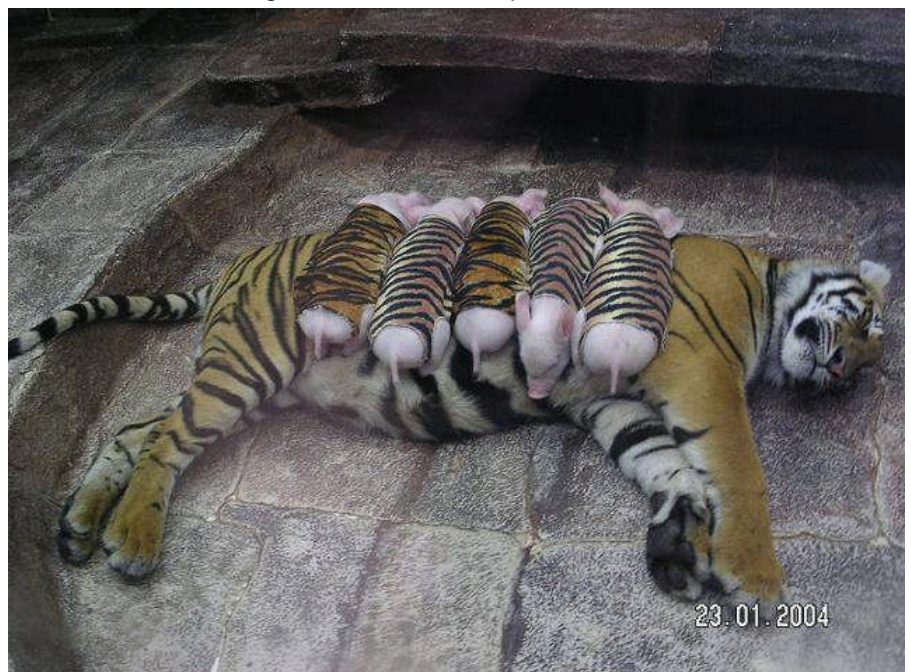

The veterinarians felt that the loss of her litter had caused the tigress to fall into a depression. The doctors decided that if the tigress could surrogate another mother's cubs, perhaps she would improve.

After checking with many other zoos across the country, the depressing news was that there were no tiger cubs of the right age to introduce to the mourning mother.

The veterinarians decided to try something that had never been tried in a zoo environment.

Sometimes a mother of one species will take on the care of a different species. The only 'orphans' that could be found quickly were a litter of weanling pigs. The zoo keepers and vets wrapped the piglets in tiger skin and placed the babies around the mother tiger. Would they become cubs or pork chops??

Take a look...

**Editorial Policy**

Any opinions expressed in the Dally Digest are not necessarily those of the committee of the Dalmatian Association of Queensland, nor does it accept responsibility for any inaccuracies in any advertising or editorial. Contributions are welcome, but the Editor reserves the right not to publish articles that are considered unsuitable for the Dally Digest.  
 Next edition closing date      30/10/07

**Editor's Spot**

Spring is here and don't we know it! You would think it was Summer already. In Brisbane we are getting temperatures well over 30 C already.

Spring brings a few new hazards which we have to remember each year; its tick season again and many vets are seeing record numbers of bite cases due to the high temperatures and humidity; watch your dogs in the car, it heats up so fast at this time of year that you need to be careful putting dogs in the car; snakes are another danger to keep an eye out for, I'm told the Brown snakes are particularly feisty at this time of year as they seek mates.

Well this Dally Digest is a bit delayed as I hoped to get all the National photos in, but I'm just waiting on the Obedience photos. So I have put the Open Show photos in this issue and the National photos you will see next month.

Till next month

*Julie*
